

Two Dunrath Capital Portfolio Companies Recognized by Leading Analyst Firm

Chicago, Illinois – March 27, 2007 – Dunrath Capital, Inc. today announced that two of its portfolio companies - Arxan Technologies, Inc. and Metatomix, Inc. - have been included in the list of "Cool Vendors" in reports by Gartner, Inc.

Arxan Technologies, Inc., a leader in anti-tampering technology solutions, was recognized in Gartner's "*Cool Vendors In Infrastructure Protection, 2007*" (ID Number G00146381) published on March 13, 2007. The report highlights companies that offer "innovative technologies designed to address real-world security needs."

Metatomix, Inc., an industry leading provider of semantic composite technology-based customer data integration solutions, was included in Gartner's "*Cool Vendors In Infrastructure Protection, 2007*" (ID Number G00146405). The report, published on March 14, 2007 highlights companies that offer "innovative approaches and technology for searching structured data assets, integrating structured and unstructured data, improving the scalability of data warehouses and facilitating data governance activities."

About Gartner's Cool Vendors Selection Process

Gartner's listing does not constitute an exhaustive list of vendors in any given technology area, but rather is designed to highlight interesting, new and innovative vendors, products and services. Gartner disclaims all warranties, expressed or implied, with respect to this research, including any warranties of merchantability or fitness of a particular purpose.

Gartner defines a cool vendor as a company that offers technologies or solutions that are: Innovative, enable users to do things they couldn't do before; Impactful, have, or will have, business impact (not just technology for the sake of technology); Intriguing, have caught Gartner's interest or curiosity in approximately the past six months.

About Arxan Technologies, Inc.

Arxan (www.arxan.com) protects Intellectual Property from software piracy, tampering, reverse engineering and any manner of theft. Arxan takes software security beyond static obfuscation and encryption to dynamically defend, detect and react against application attacks. Arxan supports the full gamut of anti-tamper and robustness needs, from basic copy protection all the way up to military grade assurance. Arxan's customers include government agencies, defense systems integrators, software vendors and content providers. Founded in 2001, Arxan has offices in Bethesda, Md., San Francisco, and West Lafayette, Ind.

About Metatomix, Inc.

Founded in 2000, Metatomix (www.metatomix.com) is the leading provider of semantic customer data integration (CDI) solutions to law enforcement, courts, financial services and other customers. Metatomix solutions intelligently link customer data from existing disparate systems to create a common semantic understanding of customers across the enterprise. Using this contextual understanding, Metatomix solutions enable real-time analysis and insights, orchestrating coordinated responses amongst existing systems to optimized customer response and relationships.
