ExaDigm welcomes Xinguodu as an investor and long term partner.

Xinguodu partners with ExaDigm, Inc. to help expand ExaDigm's NX Series of high performance payment terminals and market presence worldwide.

SANTA ANA, CA – January 15, 2013 – ExaDigm, Inc., a leading innovator in Point-Of-Sale (POS) terminal solutions, today announced a private placement with Shenzhen Xinguodu Technology Co., Ltd. (XGD), a leading POS terminal manufacturer and payment solution provider.

"This commitment of Xinguodu to ExaDigm paves the way for continuing innovation for the benefit of our current and future customers." says Tony Dabbene, President of ExaDigm, Inc. "The agreement provides ExaDigm with access to a team of highly skilled engineers and world class manufacturing capabilities, accelerating the development of our NX Series of payment terminals, and demonstrating once again ExaDigm's long term commitment to continuous innovation in the payment industry. Further, it is testament to ExaDigm's history, capabilities and vision."

The ExaDigm NX Series of POS Terminals

Built around the most advanced technology available, the NX Series encompasses a roadmap of highly secure, high performance and cost effective mobile, countertop and PINPad devices, certified for EMV Level 1 and 2, PCI PTS and PCI PA-DSS, continuing to prepare merchants for the future with the expected card association mandates in the US and worldwide.

The first device of the NX Series, the NX2200, is a mobile POS device introduced in 2012, and draws a lot of interest with a host of advanced features.

The ExaDigm NX2200 is the best mobile POS choice for off-premise retail, field service, food service/delivery, transportation, events & venues, and for other markets where mobility is key.

Partnered with the largest most reputable wireless carriers in US and coupled with a high value added enterprise class monitoring and download system (Terminal Management System, or TMS), the NX2200 provides the most cost effective and secure PCI certified mobile POS solution in its class.

Among the NX Series, are the soon to be released Countertop and PINPad solutions, which include NFC support, extending ExaDigm's roadmap of highly secure POS solutions for a broad range of markets.
